

FLEUR DE LYS

A counted motif chart for knitting or stitching

© Kim Brody Salazar, 2005, 2012; <http://www.string-or-nothing.com>

Motif as shown is 29 units wide and 32 units tall, using two colors of red and two of yellow.

I worked up this design as a repeating design element on a large bench cover needlepoint project; a project requested by my mother. Sad to say, I'm a very bad daughter, and I never finished out her bench cover graph. Still, I do have this motif left over from it, and it proves that occasionally I do venture into the world of color.
